

HANDBOOK OF LOST WAX or INVESTMENT CASTING

A how-to-do manual that shows you
how to make the equipment you
will need as well as how to
use it to make patterns,
molds and castings for
jewelry and small
metal parts

TABLE OF CONTENTS

P R E F A C E	4
An Introduction to Lost Wax or Investment Casting	4
Chapter 1	
How to Make a Vacuum Investment Mixer	6
Bill of Materials	9
Chapter 2	
How To Make A Burnout Oven	10
Bill of Materials	16
Chapter 3	
How To Make A Pressure Casting Machine	18
Bill of Materials	22
Chapter 4	
How To Make A Simple Wax Wire Extruder	23
Bill of Materials	24
Chapter 5	
How To Make Rubber Molds	26
Flask	28
Investing the Pattern	46
Making The Mold	29
Parting The Mold	29
Bill of Materials	30
Chapter 6	
How To Make A Wax Injector	31
Bill of Materials	36
Chapter 7	
How To Make Wax Patterns	37
Tools and Supplies	39
Chapter 8	
How To Invest Wax Patterns	43
Debubblizers	43
Flasks	43
Mixing Investment	45
Eliminating bubbles	45
Investing the Pattern	46
Finishing the Flask for Casting	47

Chapter 9

How To Burnout And Cast	48
Preparations	48
Temperature Controls	49
Preparing Metal	49
Determining Quantity of Metal	49
Handling Flask	50
Introducing and Melting Metal	50
Using The Pressure Casting Machine	51
Cooling and Removal of the Casting	52
Cleaning the Casting	52

Chapter 10

Rubber Molds and Duplicate Patterns	54
Rubber for Molds	54
Homemade Flask for Curing Rubber Molds	55
Loading the Rubber and Curing the Mold	56
Parting the Mold	56
Preparation of the Mold for Duplicate Patterns	57
Using the Wax Injector	58
Finishing Duplicate Wax Patterns	59
Appendix	60
Rubber Molds Without Vulcanizing by Frank Gemmell	60
Commercial Equipment	61
